

FCC Regulators: Please don't allow the public airways to be abused for partisan politics. This is a subversion of our Democracy, an affront to every American, a slap in the face to the FCC, and highly illegal. Please go after every case of abuse of our airwaves. Make it clear to the owners of all media regulated by your offices that you will vigorously uphold the law and prosecute to the fullest extent those who break the law.

Pappas Telecasting Companies' 'donation' of \$325,000 in airtime to Republican candidates in certain areas is yet another example of a powerful media group abusing its privileged access to the public airwaves.

Sincerely, Mr and Mrs Wm. Hunter
